

Take It Easy Specs

Offered for Sale at \$220,000

Description

Peter Snell, boat builder and designer, is renowned for his series of successful marine ply and epoxy catamarans. *Take It Easy* is the first of the 11.6m designs Peter built for his own use and as a demonstration model for his plans. It is definitely built to specs!

Take It Easy is unlike any other catamaran. Where most yachts you see are white, she is different and stands out in an anchorage with her blue hulls, light grey deck and white top sides, and her distinctive orange sail trims. On the inside, she is a well presented boat also with its New Guinea rosewood internal finishes.

She has been meticulously maintained by her fastidious owners. *Take It Easy* is a well proven coastal and offshore cruiser, with many Bass Strait crossings under her keels and trips to the West Coast of Tasmania, the Bass Strait islands, Lord Howe and the Great Barrier Reef.

Recent upgrades include new sails, new electronics and new engines in early 2018.

Designer & Builder: Peter & Ann Snell

Design:

Easy 11.6

Year:

2003

Length:

11.6m or 38 ft

Beam:

6m

Draft:

0.8m

Keel:

Mini keels

Hull:

Marine Ply and Epoxy

Location:

Currently in SE Queensland – owners can deliver by negotiation.

Australian Registration

ON 860334

Home port: Melbourne
